

I am sending this message to let you know how much K-LOVE serves our community. In a world where the message is “not good” to our young children – Christian radio is the best influence to them in comparison to the other secular stations. My children love the music and I hope to be able to keep providing them a good influence.

I know several families who utilize this radio station and others like it to provide a good environment to their families and it would be unfortunate for this to be taken away.

K-LOVE is in the best interest for the public. We need an environment where minds can be filled with positive things and not smut. Please do not take this away.
